<p>Activity Report: "Without the organ donor there is not story, no hope, no transplant. But when there is an organ donor, life springs from death, sorrow turns to hope and a terrible loss becomes a gift".</p> <p>Students and staff of Shetty Institute of Technology in association with Shetty Nursing College visited Naganalli and created awareness about the organ donation.</p> <p>After death we burn or buried of human body. Even some organs of the body can be preserved and stored after death. If these organs are donated, it might save somebody else's life. Organ Donation is defined as the removal of organs from a body and transplanting it to a new body by surgical operations. The requirement for new organs usually arises when a person loses an organ to some accident or stops functioning.</p> <p>Organ donation is donating a donors organs like heart, liver, Kidneys, intestines, lungs, and pancreas, after the donor dies, for the purpose of transplanting them to another person who is in need of organ. The primary objective is to promote awareness of life-saving solid organ transplants.</p>
