

MEMORANDUM OF UNDERSTANDING (MOU)

BETWEEN

SHETTY INSTITUTE OF TECHNOLOGY

(Shri Shetty Sangappa Memorial Trust, Shahabad road, KALABURAGI -
585105)

AND

**S. G. BALEKUNDRI INSTITUTE OF
TECHNOLOGY, BELAGAVI**

(Shri Siddarameshwara Education Trust's Naganur Rudrakshi math, Belagavi,
590010)

This MOU is entered in to on the 23rd day of May 2023 by and between

S.G.BALEKUNDRI INSTITUTE OF TECHNOLOGY, BELAGAVI

Situated at **Shivabasava Nagar Belagavi**, Karnataka,

and

SHETTY INSTITUTE OF TECHNOLOGY

Situated in **Kalaburagi**, (here in after named as **SIT Kalaburagi**) an Engineering Institution established by **Shri Shetty Sangappa Memorial Trust**.

The above said Institutions are hereafter referred to individually as Institute and collectively as Institutions.

1. The objectives of the MOU

The primary objective is that, **SIT Kalaburagi** will receive with good intent, value addition in Academic, Research and Technological areas for incorporating Quality education through the benevolent act of **S.G.B.I.T, BELAGAVI** as mentor. The beneficiaries will be the students and faculty of **SIT Kalaburagi**.

The stated objectives of the MOU are:

- a. To promote and nurture **academic interest** at **SIT Kalaburagi** by **S.G.B.I.T, BELAGAVI**
 - b. To provide necessary support for **implementation of quality education** at **SIT Kalaburagi**
 - c. To **encourage bright students of SIT Kalaburagi** through value added activity in terms of allowing them to participate in workshops/ guidance by the faculty of **S.G.B.I.T, BELAGAVI**
 - d. To promote **Research/Continuing education activities** between institutions.
- 2. Technical Areas of Collaboration**
- a. Facilitating **Faculty Development Program (FDP)** to enhance teaching quality at SIT KALABURAGI.
 - b. Faculty and student exchange program on mutually agreeable terms and in domains of interest.
 - c. Enabling students at **SIT Kalaburagi** to take up state of art projects with in-house competency
 - d. **Support SIT Kalaburagi** in establishing Research Centres recognised by VTU.
 - e. Facilitating **Special Lectures from S.G.B.I.T, BELAGAVI** at **SIT Kalaburagi** on topics of relevance, giving impetus on academic interaction.
 - f. **Support SIT Kalaburagi** through value added activities in relevant domains at both student and faculty level
 - g. Seeking guidance from **S.G.B.I.T, BELAGAVI** for **organising workshops/conferences and personality development programs at SIT Kalaburagi** for skill development for its faculty and students.
 - h. **S.G.B.I.T, BELAGAVI** to mentor in establishing E-Classrooms, Research Labs, Digital Library, Training & Placement etc. at SIT KALABURAGI to the extent possible.
 - i. Access to video Lectures of **S.G.B.I.T, BELAGAVI** on the **premises of S.G.B.I.T, BELAGAVI to the faculty / students of SIT Kalaburagi**
 - j. Advise on strengthening Placement Services at **SIT Kalaburagi**
- 3. Proposed mode of collaboration**
- S.G.B.I.T, BELAGAVI and SIT KALABURAGI to collaborate through the following:**

- a. Cooperation and promotion for education in areas of mutual interest
- b. By establishing a regular mode of interaction
- c. Taking stock of and bringing out an annual or semester-wise progress report on activities undertaken and the results obtained.

A specific time bound plan will be worked out by institutions depending upon the availability of resources. A separate plan will be worked out for each activity, which will supplement this MOU.

4. Terms and conditions

The Institutions have agreed to work together in good faith and intent aiming at enhancing quality of education activity at **SIT Kalaburagi** through mutual interaction and is further limited to the following terms mutually agreed upon

- a. For supporting continuing education to **SIT Kalaburagi** teachers and students, all the financial arrangements will be arrived upon through mutually agreeable terms and conditions.
- b. The travel expenditures of **students of SIT Kalaburagi** for attending any value added activity at **S.G.B.I.T, BELAGAVI** will be borne by **SIT Kalaburagi**.
- c. The faculty members and students of **SIT Kalaburagi** will be permitted to make use of Library facilities at **S.G.B.I.T, BELAGAVI** during their sabbatical period.
- d. Usage of academic infrastructure at **S.G.B.I.T, BELAGAVI** can be allowed for a limited period subject to its availability and approval of the head of the facility / department and subject to the norms of the Institute.
- e. Both the Institutions agree to help, identify and invite the faculty members and researchers from other Institutes to participate in conferences, short term courses and workshops of other Institutes.
- f. **This MOU can be amended, renewed or terminated by mutual written agreements of the institutes at any time.**
- g. **The participating Institutions will maintain strict confidentiality upon any material / discussion that arise from the interactions. Under no circumstances, it shall be made public without the express consent of both the Institutions.**
- h. **Any deviation from the stated terms and conditions will automatically terminate this agreement with immediate effect.**

S.G.B.I.T, BELAGAVI and SIT Kalaburagi agree to share information in strict confidence and will respect the intellectual property rights of each other. If the decision is not to pursue a collaborative activity, all information will be returned to the rightful owner.

5. Duration of MOU

This MOU, unless extended by the written consent of the Institutes, shall expire in three years after the effective date specified in the opening paragraph. However, on review, the MOU can be extended further based on mutual consent.

6. Co-ordinators

Both Institutes will designate coordinators who will have the responsibility for coordination and implementation of this MOU. the details of which will be supplemented to this MOU as Annexure.

7. Signed in duplicate

This MOU is signed in duplicate with each copy being an official version and having equal legal validity. By signing below, the Institutions, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed effective as of the day and the year, first written above.

Specific agreement will be made from time to time concerning collaborative activity. Such agreements will take the form of an Annexure to this MOU and will require signature from Authorities of both Institutions.

Date: 06-07-2023

Subject-Requesting to deliver a Seminar on "COMMUNICATION SKILLS"

Dear Sir,

We are delighted by having the opportunity to invite you as a Guest at Shetty Institute of Technology, to deliver a seminar on "Communication Skills" on 14-07-2023 in seminar hall.

We hope, you accept our request for this invitation and help our staff and students to gain knowledge.

We hope, that we will benefit a lot by your presence.

Thanking You,

Principal 6/7

Objective:

1. Students will develop the ability to express their ideas clearly and effectively through spoken language, including mastering articulation, tone modulation, and appropriate vocabulary usage.
2. Students will learn to practice active listening techniques, such as maintaining eye contact, nodding, and summarizing what has been said to ensure understanding.
3. Students will recognize and effectively use nonverbal cues, such as body language, facial expressions, and gestures, to enhance their overall communication

Resource Person:

Details of Program:

The Shetty Institute of Technology has organised a seminar on “**COMMUNICATION SKILLS**“ on Date: 14-07-2023.

This session covered techniques for clear and effective verbal communication. Topics included articulation, tone modulation, and vocabulary enhancement. Ms. Rao emphasized the importance of clarity and confidence in both everyday conversations and formal presentations. The seminar successfully met its objectives by equipping participants with valuable communication skills that can be applied in various contexts. The interactive format and expert-led sessions ensured a comprehensive learning experience, fostering both personal and professional development.

MEMORANDUM OF UNDERSTANDING (MOU)

BETWEEN

SHETTY INSTITUTE OF TECHNOLOGY

(Shri Shetty Sangappa Memorial Trust, Shahabad road, KALABURAGI – 585105)

AND

KCT ENGINEERING COLLEGE

(Under Hazrath Shaikh Minhajuddin Ansari Kallerawan Charitable Trust Gulbarga)

This MOU is entered in to on the 23rd day of May 2023 by and between

KCT ENGINEERING COLLEGE KALABURAGI

(Under Hazrath Shaikh Minhajuddin Ansari Kallerawan Charitable Trust Gulbarga) Situated at
Kalaburagi Karnataka,

and

SHETTY INSTITUTE OF TECHNOLOGY

Situated in **Kalaburagi**, (here in after named as **SIT Kalaburagi**) an Engineering Institution established by **Shri Shetty Sangappa Memorial Trust**.

The above said Institutions are hereafter referred to individually as Institute and collectively as Institutions.

1. The objectives of the MOU

The primary objective will be that, **SIT Kalaburagi** will receive with good intent, Value addition in Academic, Research and Technological areas for incorporating Quality education through the benevolent act of **KCT** as Mentor. The beneficiaries will be the Students and Faculty of **SIT Kalaburagi**.

The stated objectives of the MOU are:

- a. To promote and nurture **Academic Interest** at **SIT Kalaburagi** by **KCT**
- b. To provide necessary support for **implementation of quality education** at **SIT Kalaburagi**
- c. To **encourage bright students of SIT Kalaburagi** through value added activity in terms of allowing them to participate in workshops/ guidance by staying on campus at **KCT**
- d. To promote **Research/Continuing education activities** between institutions.

2. Technical Areas of Collaboration

- a. Facilitating **Faculty Development Program (FDP)** to enhance teaching quality at **SIT KALABURAGI**.
- b. Faculty and Student exchange program on mutually agreeable terms and in domains of interest.

- c. Enabling students at **SIT Kalaburagi** to take up state of art projects with in-house competency
- d. **Support SIT Kalaburagi** in establishing Institute level Research Centre.
- e. Facilitating **Special Lectures from KCT at SIT Kalaburagi** on topics of relevance, giving impetus on Academic Interaction.
- f. **Support SIT Kalaburagi** through value added activities in relevant domains at both Student and Faculty level
- g. Seeking guidance from **KCT for organising workshops/conferences and personality development programs at SIT Kalaburagi** for skill development of its faculty and students.
- h. **KCT to mentor in establishing E-Classrooms, Research Labs, Digital Library, Training & Placement etc. at SIT KALABURAGI to the extent possible.**
- i. Guidance from **KCT for establishing an English Academy at SIT Kalaburagi.**
- j. Access to video Lectures of **KCT on the premises of KCT to the faculty / Students of SIT Kalaburagi on Sabbatical at KCT.**
- k. Advise on strengthening Placement Services at **SIT Kalaburagi**

3. Proposed mode of collaboration

KCT and SIT KALABURAGI to collaborate through the following:

- a. Cooperation and promotion for education in areas of mutual interest
- b. By establishing a regular mode of interaction
- c. Taking Stock of and bringing out an annual or semester-wise progress report on activities undertaken and the results obtained.

A specific time bound plan will be worked out by Institutions depending upon the availability of resources. A separate plan will be worked out for each activity, which will supplement this MOU.

4. Terms and conditions

The Institutions have agreed to work together in good faith and intent aiming at enhancing quality of education activity at **SIT Kalaburagi** through mutual interaction and is further limited to the following terms mutually agreed upon

- a. For supporting continuing education to **SIT Kalaburagi** teachers and students, all the financial arrangements will be arrived upon through mutually agreeable terms and conditions.
- b. The travel expenditures of **students of SIT Kalaburagi** for attending any value added activity at **KCT** will be borne by **SIT Kalaburagi**.
- c. **KCT** will be supporting **SIT Kalaburagi** for accommodation arrangements of students and Faculty on Campus for any short term activity to the extent of **5 Students and 1 Faculty** with nominal charges payable to **KCTEC Kalaburagi** from **SIT Kalaburagi**.
- d. The faculty members and students of **SIT Kalaburagi** will be permitted to make use of Library facilities at **KCT** during their sabbatical period.
- e. Usage of academic infrastructure at **KCT** can be allowed for a limited period subject to its availability and approval of the head of the institution /department and subject to the norms of the Institute.

- f. Both the Institutions agree to help, identify and invite the faculty members and researchers from other Institutes to participate in conferences, short term courses and workshops of other Institutes.
- g. This MOU can be amended, renewed or terminated by mutual written agreements of the institutes at any time.
- h. The participating Institutions will maintain strict confidentiality upon any material / discussion that arise from the interactions. Under no circumstances, it shall be made public without the express consent of both the Institutions.
- i. Any deviation from the stated terms and conditions will automatically terminate this agreement with immediate effect.

KCT and SIT Kalaburagi agree to share information in strict confidence and will respect the intellectual property rights of each other. In the event that the decision is not to pursue a collaborative activity, all information will be returned to the rightful owner.

5. Duration of MOU

This MOU, unless extended by the written consent of the Institutes, shall expire in Two years after the effective date specified in the opening paragraph. However on review, the MOU can be extended further based on mutual consent.

6. Co-ordinators

Both Institutes will designate coordinators who will have the responsibility for coordination and implementation of this MOU. The details of which will be supplemented to this MOU as Annexure.

7. Signed in duplicate

This MOU is signed in duplicate with each copy being an official version and having equal Legal validity. By signing below, the Institutions, acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed effective as of the day and the year, first written above.

Specific agreement will be made from time to time concerning particular collaborative activity. Such agreements will take the form of an Annexure to this MOU and will require signature from Authorities of both Institutions.

Details of Program:

The Shetty Institute of Technology, Kalaburagi has organized one day seminar on "Autonomous Vehicles" on 09-06-2023.

The speaker Of the seminar was Mr.Anilkumar

He has presented a seminar on "Autonomous Vehicles". This seminar focuses on autonomous vehicles technology. The seminar describes key sensor technologies under the bonnet of a driverless car. After speaker started with the introduction part , this seminar dwells deeper into each sensor technology demonstrating examples of self driving cars such as Google's self driving car, DARPA URBAN challenge etc., along the way. Speaker also introduces the concept of

PRINCIPAL
Shetty Institute of Technology
KALABURAGI

electronic control units which is responsible for collecting data from different sensors and respond to other units accordingly. The slides also build a platform for vehicle to vehicle communication technology, types and its application areas. At last speaker took some examples and made the session interesting.

Outcomes:

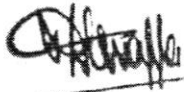

1. All the participants to get the knowledge of about newer technology used in autonomous vehicles.
2. Participants Gain knowledge about how this autonomous car is safe when compared to other normal cars.

Number of Students participated: 30

Number of faculty participated: 10

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (MoU) is made on this 18th day of May, 2023 between Karnataka German Technical Training Institute (KGTTI), an institute under Society for Karnataka German Multi Skill Development Center (KGMSDC), established by Government of Karnataka, under funding from Government of India & Government of Karnataka, and having Technical Collaboration with German International Services (GIZ-IS), having its office at Karnataka German Technical Training Institute Near Chandrashekar Patil Stadium, Rajapur Road Behind Judicial Quarters, Kalaburagi - 585103, India (hereinafter referred to as KGTTI), on the one part.

AND

Shetty Institute of Technology, affiliated to Visvesvaraya Technology University, Belagavi and has been recognized by the AICTE, New Delhi, Established in 2011 and having its premises at Shetty Institute of Technology, Shahabad Road, Kalaburagi- 585105.

This MoU is made for training Engineering Graduate students and conducting skill development programs mentored by Shetty Institute of Technology, in the following technical areas.

- 1) CAD/CAM/CNC Labs.
- 2) Information Technology
- 3) Electrical Lab
- 4) Hardware and Networking Labs
- 5) Welding Lab

In this connection, the following points are agreed upon:

1. Objective

The overall objective is to provide on-site advanced technology hands-on training to the students of **Shetty Institute of Technology** in the pre-designed course, and support students on a continual basis in order to make them industry ready.

2. Recitals

- a. KGTTI is an ISO 9001-2015 certified organization providing training and consultancy services in advanced technology areas to students, jobseekers and industry personnel.
- b. **Shetty Institute of Technology** is an Engineering college headed by chairman Udayshankar Shetty. All the courses are affiliated to Visvesvaraya Technological University, Belagavi.
- c. The purpose of this agreement is with reference to defining the areas of cooperation, benefiting both the **KGTTI and Shetty Institute of Technology**.

MEMORANDUM OF UNDERSTANDING

This agreement witnesses as follows:

Areas of cooperation

3. Scope of Agreement:

KGTTI:

KGTTI to liaison with **Shetty Institute of Technology** for providing advanced technical training to the students and come up with strategy to deliver courses as per **Shetty Institute of Technology** curriculum in the above mentioned technical areas to make the students industry ready.

KGTTI will provide training on the specified syllabus of **Shetty Institute of Technology** to the students Shetty Institute of Technology.

KGTTI will impart training at their campus. All trainings will be conducted during KGTTI's office hours i.e. 9:30 am to 5:30 pm. No training program would be conducted on Second Saturdays, Fourth Saturdays, Sundays and Public holidays as per KGTTI holiday list.

Shetty Institute of Technology:

Shetty Institute of Technology will identify and provide 20/40 students per training batch as per the agreed terms.

Shetty Institute of Technology has nominated HoD Chandrakala of Computer Science Engineering Department as coordinator for the training activities executed at KGTTI.

4. Training Support & Methodology

The training shall be executed at the KGTTI premises.

KGTTI shall provide all support needed for imparting the necessary training to the students of **Shetty Institute of Technology**.

Each Training program of specified duration will be carried out on mutually agreed terms on all working days in a week.
KGTTI will certify the participants of training programs after successful completion.

MEMORANDUM OF UNDERSTANDING

5. General Agreements

Both the parties agree that no action/failure on either part, to act relating to the above proposal, will give rise to/serve as the basis for any claim, obligation or liability on either side.

The students of **Shetty Institute of Technology** will take full care of the lab equipment, on the event of any damage/misuse of the equipment **Shetty Institute of Technology** will Replace/Repair the equipment.

This Agreement may be amended with the prior written consent of both the parties.

Either party can cancel or terminate this Agreement unilaterally (and without reason), by giving an advance notice of three (3) months to the other party.

This agreement will be effective for 1 year with effect from the date of signing. The period can be extended on mutual agreement.

6. Course Deliverables:

The courses that could be offered from the **KGTTI to the students** and the suggested batch size along with course fee are furnished as per the attached course Annexure. The training requirement of skill development mentored by **Shetty Institute of Technology** will be discussed based on the need. The course fees are approved by Govt. of Karnataka.

Note: Any change in the course fee as prescribed by Government of Karnataka would be applicable and deemed to be part of this agreement.

KGTTI will follow its standard methodologies related to conduct, student attendance, globally accepted quality norms, student feedback, internal assessments, examination, evaluation and certification, for smooth & effective delivery of course content and competence building of the trainee student.

The above listed courses can vary from time to time and new courses will be added, based on mutual convenience, in discussion by the two parties.

Course fee can be discussed and decided from time to time on mutually agreeable basis. The agreed fee has to be paid in advance to **KGTTI** before the start of the course along with the list of enrolled students. **Shetty Institute of Technology** shall collect the course fee from the students and remit it to **KGTTI**. **KGTTI** will not refund the course fee either in part or in full in the unlikely event of student dropping out in the middle of the course.

MEMORANDUM OF UNDERSTANDING

7. Notices:

All notices, requests and other communications under this agreement or in connection herewith, shall be given to or be made up the respective parties as follows:

To KGTTI

The Director,
Karnataka German Technical Training Institute,

8. Force Majeure:

The parties to this agreement shall not be liable to each other for failure or delay in the performance of any of its obligations under this agreement for the time and to the extent such failure or delay is caused by riots, civil commotion, wars, hostilities between nations, Government loss, orders, regulations, embargos, action by the Governments or any agency thereof, act of God, storms, fires, accidents, strikes, sabotages, explosions, or other similar or different categories beyond the reasonable control of the respective parties to this MoU.

9. Cooperation between parties:

For the successful implementation of this MoU, to the mutual satisfaction and benefit of the parties, shall require a significant degree of cooperation and benefit on the part of the parties. Each of the parties agrees to act in good faith and in accordance with the spirit of this MoU. Each of the parties agrees to maintain all necessary accounts and records for the purpose of proper implementation of this MoU.

10. Confidentiality:

Parties to this agreement shall hold in strict confidence all the information obtained from any other party to this agreement which is identified and marked as "confidential".

MEMORANDUM OF UNDERSTANDING

They shall not disclose such information to third parties or use this information except in performance of the services agreed to in this agreement. This undertaking shall not apply to any of the information, which is required by law to be disclosed or which is in or hereafter enters the public domain.

11. Dispute resolution:

If any doubt arises to the interpretation of the provisions of this agreement or as to matters not provided therein, the parties to this Agreement shall consult with each other for such instance and resolve such doubts in good faith.

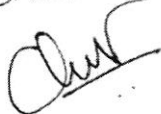

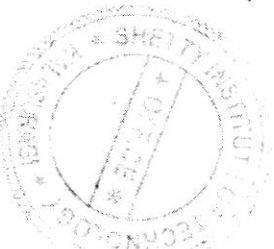

Any dispute between the parties shall always be tried to be resolved by mutual consultation without any resort to any form of legal remedy including resort to court of law. In case of failure to resolve the issue, the Joint Secretary, Society for Karnataka German Multi Skill Development Centers (KGMSDC) at Bangalore, will be the arbitrator and his decision shall be final and binding upon the parties.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be made in English and executed by their respective duly authorized representative on the day and year mentioned in the first page.

Subject-Requesting to conduct Training Program on CCNA ROUTING & SWITCHING

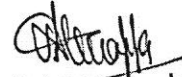

Dear Sir,

With respect to above cited subject , I request you to kindly arrange an Training Programme on CCNA ROUTING & SWITCHING on dated:10-10-2023 for our students which is quite helpful to understand the concept relating to the cited subject.

Kindly note this Training is in line with the scope of our signed MoU.

Hope you do the needful & oblige.

Thanking You,

REPORT ON: CCNA ROUTING & SWITCHING

Program date:10-10-2023

Topic Covered:

CCNA ROUTING & SWITCHING Introduction and various skills and competencies were explained:

- Performing basic router and switch configuration
- Design , calculate & apply sub network address in IPV4 & IPV6 Network.
- Configuring dynamic routing protocol, Distance Vector routing protocols, and Link-state routing protocols.
- Configure , monitor & troubleshoot types of ACL for IVP4 & IVP6 .
- Configure & troubleshooting VLANs & Inter- VLAN routing.
- Configure & troubleshoot wireless routers & wireless clients.
- Operation and Benefits of VPN & Tunneling.
- Monitor and troubleshoot network operation using Syslog , SNMP and Net Flow

MEMORANDUM OF UNDERSTANDING

BETWEEN

Consortium of Medical, Engineering and Dental Colleges of
Karnataka (COMEDK)

132, Second Floor, 11th Main, 17th Cross,
Malleswaram, Bengaluru - 560 055

And

Shetty Institute of Technology

Shahabad Rd, Rajapur, Kalaburagi, Karnataka-585105

23 January, 2023

ComedKares Programs MoU

This Memorandum of Understanding ("MoU") is entered into on 24th December, 2022 at Bengaluru.

BY and BETWEEN

Consortium of Medical, Engineering and Dental Colleges of Karnataka (COMEDK) - unit of Karnataka Professional Colleges Foundation a Registered Charitable Trust under Section 12A of Income Tax Act, 1961, having its registered office at # 132, Second Floor, 11th Main, 17th Cross, Malleswaram, Bengaluru - 560 055 and represented by the office of the Managing Directors, COMEDK (hereinafter referred to as "COMEDK" which expression shall unless repugnant to or excluded by the context hereof mean and include its successors in interest and permitted assigns) and assignees of First Party.

AND

Shetty Institute of Technology, Kalaburagi having its registered campus at Shahabad Rd, Rajapur, Kalaburagi, Karnataka-585105 Karnataka and represented by **The Principal**, hereinafter referred to as "Institution" (which expression shall wherever the context so admits include its successors in interest, faculties, administrators, management and assigns) of the Second Party.

WHEREAS COMEDK has initiated a program called ComedKares to offer programs and courses to the institutions that are inline with VTU guidelines and designed along with industry experts for the students. Exposing students to various opportunities available in the industry to build their competitiveness that will enhance the learner's 21st-century skills. ComedKares catalyses the interaction between the Community (industry and regional professional groups), Industry experts and academic stakeholders for knowledge sharing and co-creating solutions that positively impact the community.

WHEREAS **Shetty Institute of Technology, Kalaburagi** with the vision to develop academically excellent, culturally vibrant, socially responsible and globally competent human resources. The Institution has created an ecosystem where education is just not limited to academics, it extends beyond the class rooms & labs to industry interactions, cultural, social and sports events for the all-round development of the students.

For the purposes of this MoU, COMEDK, and **Shetty Institute of Technology, Kalaburagi** shall be individually referred to as "Party" and collectively as "Parties".

1. PREAMBLE

Whereas both the Parties have under this MoU agreed to collaborate with each other or jointly with third Parties for enhancing learner's 21st-century skills, Future Tech, Entrepreneurial Mindset, Societal Problem Ideation, Prototyping, and IP creations. The partnership shall help in shared resources, mentors, industry experts that can aid the institution in setting up an innovation ecosystem in their region thereby enhancing the outcomes of their own institution. Mutual platform created for students to explore, experiment and excel in their field of interest thereby enhancing the quality of learning for students which in turn helps in NBA, NAAC accreditation and NIRF, ARIIA ranking.

2. PROPOSED MODES OF COLLABORATION

- a. ComedKares shall curate industry standard curriculum and training for the purpose of imparting industry specific knowledge to the students of First year up till Third year at the nearest ComedKares Innovation Hub. Students from the institution can opt in for the specific courses of their interest.
- b. ComedKares shall facilitate students of respective engineering branches of Shetty Institute of Technology, Kalaburagi to take up internship/experiential learning through field visits, in collaboration with local stakeholders.
- c. ComedKares shall facilitate students of respective engineering branches of Shetty Institute of Technology, Kalaburagi to take up workshops, webinars, hackathons, Industry Talks with guidance from available resource persons & experts.
- d. ComedKares will seek assistance on occasions to connect local or influencers or associations that shall enable better community engagements.
- e. IP's generated during the program will be mutually shared between the institution/organisations participating and innovators of the idea. This is done to encourage more intellectuals and organisations to participate in developing innovative ideas for the development of communities.

In addition to the above, recently the Government of Karnataka has implemented the "Skill Labs Scheme" for students of engineering colleges with the intention of training the students for industry ready. The fee structure for each student/year will be decided by the affiliating university viz. VTU, Belagavi.

Based on the evaluation made by VTU, the fees will be fixed to individual institutions as per the eligibility criteria. Hence Shetty Institute of Technology, Kalaburagi has decided to collaborate with ComedKares, which has established eight innovation hubs for the purpose of upskilling the students for the 21st Century needs, to

enhance learners' skill sets. Track record of ComedKares with its committed trained manpower has given very good results in conducting summer internship programs for the institutions. ComedKares is also ready to offer skill enhancing programs as per the proposal approved by VTU (Ref. No 3175), Belagavi. Hence, following agreements are made between the Shetty Institute of Technology, Kalaburagi and ComedKares to provide quality training to the students and the same is monitored for its effective implementation.

3. RESPONSIBILITIES OF COMEDKARES

As the new NEP 2020 structure has emphasised on experiential learning rather than rote learning, it is imperative to look into courses that focus on unleashing creative potential of youth demography. With this objective, ComedKares has taken below responsibilities,

- a. Design, develop and deliver the structured programs/courses in an effective way to the students.
- b. To nurture the competitiveness of the students through experiential and hands-on learning thereby enhancing the employability of the youth.
- c. To maintain and record data of the students, such as, the attendance, assignments, completion of training modules, certificates, project report, internship/ workshop/ webinars/ events attended, evaluation and the details of the trainer/ experts; submitted to Institution for official records.
- d. To enhance the skill of the students by exposing them to various opportunities available in the industry and community.
- e. To provide the certificates to the enrolled students, who complete the program with required criteria.
- f. Resolve/ Guide the students on technical/ non-technical issues faced during the project execution.
- g. Conduct industry webinar/ talks, hackathons, workshops, etc., at the respective innovation hub for the students.
- h. Based on the merit, Comedkares would assist conversion of ideas to prototypes of students who have undergone training by Comedkares.
- i. Providing access to the best resources in the community and industry for the student innovators to build prototypes for the right ecosystem partner.

This in turn increases the innovation Index of the institution – number of ideas built, business pitch submitted, processes shared with partnering colleges to build their research and innovation vertical – which will help them to enhance their NIRF, ARIIA ranking and also adhere to the NBA requirements.

4. RESPONSIBILITIES OF Shetty Institute of Technology, Kalaburagi To bring to the notice of all students in the institution about the offerings of ComedKares.

- a. To provide infrastructure support at your institution to conduct events and activities.
- b. Motivate and encourage the students to take up the program/ course/ workshop/ webinars/ hackathons conducted by ComedKares.
- c. To actively take part in the outreach/ discussion meets/ gatherings activities conducted by ComedKares for the institution.
- d. Quarterly feedback on the improvements shown by the students through ComedKares program for the mutual benefits of the parties.
- e. To provide a Single Point of Contact who will be responsible for supporting the ComedKares team for smooth functioning. All reporting to the institution will be done through the Single Point of Contact.

5. COMMERCIALS

- a. **Shetty Institute of Technology, Kalaburagi** will pay from fees collected from the students enrolled for the ComedKares program on the agreed terms and will be limited to the amount approved for each program.
- b. The office of the Principal/ Finance officer will verify the bill submitted by ComedKares and make the payment on or before the commencement of the program modules
- c. Any change in the mode of payment, needs to be mutually discussed prior and agreed upon by both the Parties.

6. NO OBJECTION

Either parties are free to sign MoUs with multiple Companies, Government organisations and Educational Institutions and ComedKares and Shetty Institute of Technology, Kalaburagi will have no obligations towards the same.

The Agreement shall be subject to jurisdiction of the courts at Bengaluru. 4

7. CONFIDENTIALITY

- a. During and for a period of 3 years, both the Parties shall keep confidential all knowledge, information they acquire during their association. Such communication, information that is desired by the party sending the information to be kept confidential, shall inform the confidential nature of such information to the receiving party. Confidential information includes, without limiting the generality of the foregoing, information relating to intellectual property like, courses offered, design of the courses, contents of the tutorials, webcasts, and pod-casts, details regarding the fee payable, and/ or such other information to which the Institute may have access in the course of the association and terms of agreement which forms as part of this agreement.
- b. The obligations above shall not extend to any confidential information for which the receiving party can prove that this information:
- is in the public domain at the time of disclosure or comes within the public domain without fault of the receiving party.
 - is already known or become known to the receiving party
 - is received from a third party having no obligations of confidentiality to the disclosing party
 - is independently developed by the receiving party; or
 - is required to be disclosed by law or court order.

8. NON-EXCLUSIVITY

The relationship of the parties under this MOU shall be nonexclusive and both parties, including their affiliates, subsidiaries and divisions, are free to pursue other agreements or collaborations of any kind. However, when entering into a particular agreement, the participants may agree to limit each party's right to collaborate with others on that subject.

9. TERMS AND TERMINATION

This MOU, unless extended by mutual written agreement of the parties, shall expire 3 years after the effective date specified in the opening paragraph. This MOU may be amended or terminated earlier by mutual written agreement of the parties at any time. Either party shall have the right to unilaterally terminate this MoU upon 60 days prior written notice to the other party. However, no such early termination of this MoU, whether mutual or unilateral, shall affect the obligations of the participants under any Research Agreement, Confidentiality clause as referenced in clause 7 above, or any other agreement entered into pursuant to this MoU, which obligations shall survive any such termination.

10. RELATIONSHIP

Nothing in this MoU shall be construed to make either party a partner, an agent or legal representative of the other for any purpose.

The use of name, logo and/or official emblem of any of the Parties on any publication, document and/or paper, marketing collaterals is allowed with prior permission by either party.

11. ASSIGNMENT

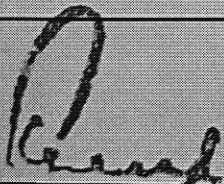

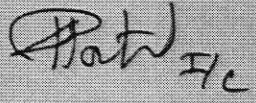

It is understood by the Parties herein this MoU is based on the professional competence and expertise of each party and hence neither Party shall transfer or assign this Agreement, or rights or obligations arising hereunder, either wholly or in part, to any third party.

12. SIGNED IN DUPLICATE

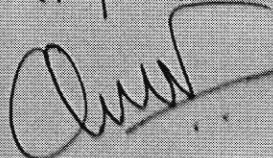

This MoU is executed in duplicate with each copy being an official version of the Agreement and having equal legal validity.

BY SIGNING BELOW, the parties, acting by their duly authorised officers, have caused this Memorandum of Understanding to be executed, effective as of the day and year first above written.

The above agreement is made initially for 3 years from the current academic year 2022-23 to 2024-25. The same can be reviewed on completion of 3 years of collaboration, mutually and continued further.

1. Introduction

Techties is an Informal event, a collaborative initiative by ComedKares where industry professionals and students come together to bridge the gap, foster connections and promote personal growth through knowledge sharing and collaboration. Students from various engineering colleges around Kalaburagi & many professionals from various Startups came together to connect, Learn and build meaningful relationships at this unique networking opportunity for aspiring professionals and industry experts.

2. Objective

2.1 Objective for Industry Professionals:

- ❖ The objective of hosting the event for industry professionals is to foster collaboration and knowledge exchange between seasoned industry experts and aspiring students.
- ❖ It aims to create a platform where professionals can share their experience, mentor students, and provide valuable insights into the industry.
- ❖ This event encourages professionals to engage with students, helping them develop practical skills and ignite their passion for robotics.

2.2 Objective for Students:

- ❖ The objective of hosting the event for students is to provide them with an opportunity to learn from industry professionals and gain hands-on experience in assembling and operating robots.
- ❖ By participating in the event alongside professionals, students can develop their technical skills, problem-solving abilities, and teamwork.
- ❖ It also allows them to establish valuable connections with industry experts, potentially leading to mentorship, internships, or job opportunities in the future.

KALABURAGI

3.3 Event Flow

- ❖ **Team formation:** Upon arrival at the venue, student participants were assigned to teams through a random allocation process. To enrich the teams' composition and provide valuable industry insights, professionals from various fields were strategically distributed among the teams, ensuring that each team had at least one industry personnel. In order to optimise space utilisation and encourage interaction, the twelve teams were allocated across six tables.
- ❖ **Event introduction:** The event was hosted by Sandeep, Adding a futuristic touch to the proceedings. With enthusiasm and clarity, the host effectively communicated the purpose and goals of the gathering, ensuring that everyone in the audience understood the intentions and objectives of the event.
- ❖ **Icebreaker activity:** To promote seamless communication and foster connections between students and industry facilitators, an interactive icebreaker activity was organised. This engaging session aimed to break the initial barriers and encourage participants to interact with each other in a comfortable and relaxed environment.

- ❖ **Robot Assembly and Training:** Every team was provided with a dedicated workspace equipped with all the required materials. A presentation was conducted to guide participants on assembling the robot and understanding the purpose of each component. Following the instructions, participants enthusiastically put the robot together. Industry professionals

were present to offer assistance, answer questions, and share their expertise, ensuring a smooth and informative process. Additionally, participants were familiarised with the robot's control mechanisms, programming techniques, and safety precautions to ensure a comprehensive understanding of its operation.

- ❖ **Practice Time:** Each group was given enough time to practise using the robots they assembled. This allowed participants to get comfortable with operating the robots and improve their skills. The purpose was to give everyone a chance to try out the robots and become more confident in controlling them. By having this practice session, participants had the opportunity to get better at using the robots and make the most out of their experience.
- ❖ **Robo Relay Competition:** The centre manager, Sachin, hosted the Robo Relay competition. Participants were provided with a clear explanation of the track they needed to complete. They were informed about the rules and penalties associated with crossing boundaries or touching obstacles during the relay.

In this competition, each table consisted of two teams that worked together as a collective unit. The competition was between two tables. The track consisted of 4 lanes which merged. After completing each obstacle, the responsibility of controlling the robot was passed on to another team member, ensuring equal participation from everyone. The team that completed the track in the shortest time emerged as the winner. Industry professionals also participated along with the teams to control the bot during the competition.

The competition fostered a competitive yet supportive environment, motivating participants to both compete and learn from one another. It provided an opportunity for teams to showcase their skills, collaborate effectively, and strive for success in a fun and engaging manner.

Track Rules of the Robo relay competition:

The event involves two bots per team:

- BO motor Bot
- DC Motor Bot

The BO Motor Bot begins from the Start. The DC Motor Bot starts from the lap. The BO motor bot manoeuvres through obstacles to come towards the tilting ramp. The DC motor bot will manipulate objects and navigate through more complex obstacles to create a path. After passing through each obstacle the next team member will take over the controls of the bot.

Lap point:

Once both the bots reach the lap point, the BO motor bot crosses the lap and the DC motor bot carries the BO motor bot to the other side.

The BO motor bot climbs the DC motor bot and continues the track .

The DC motor bot then finishes the line.

Points System:

The team which takes the least time to complete the track wins the race. Penalties were given to any fouls made by the bot.

+5 Second Penalty: If the bot touches any hurdles, falls down from the bridge or ramp, and crosses the track lines

+10 Second Penalty: If the bot is stuck and manual support is used to resume the bot,

+1 minute Penalty: if the bot has to skip any obstacle.

❖ **Knowledge Sharing and Closing Ceremony:**

Panel Discussion: Mr.Sumesh hosted an engaging panel discussion featuring esteemed guests. The panellists included Sunil Vibhuti, Linuscart IT Solutions Pvt.Ltd, Kalaburagi, and Basavaraj Madgi, Founder and CEO at eMileAge Initiative Pvt.Ltd. They shared valuable insights, discussed challenges, and shared success stories from their extensive experience.

PRINCIPAL
Shetty Institute of Technology
KALABURAGI

Recognition for Robo Relay: Following the panel discussion, the winning team of the Robo Relay competition was honoured with mementoes & Trophies presented by the guests. It was a moment of celebration for the victorious team, acknowledging their remarkable performance.

Participation Certificates: As a token of appreciation, all participants received participation certificates. The recognition highlighted their involvement and contribution to the event, affirming their active participation and dedication throughout the program.

Shetty Institute of Technology
KALABURAGI

- ❖ **High tea:** The event created a relaxed environment where students and professionals from the industry socialised while enjoying delightful snacks and tea. The students took advantage of this opportunity to exchange contact information, allowing them to establish connections with experienced mentors who are dedicated to helping them succeed. Through these connections, the students were able to acquire invaluable guidance and gain insights into the industry from seasoned experts.

4. Feedback and Testimonials:

9.1/10

Event Rating by
Student Participants

9.6/10

Event Rating by
Industry Professionals

96.9%

Willingness to be contacted
for future events at the centre

Professional's Testimonials:

- It's a need of hour for Kalaburagi region
-Maharuq Fatima, Assistant professor, KCTEC college.
- Interactive & engaging session for students. They love to work on practicals and good Coordination of team
-Sunil Vibhute, Founder & CEO Linuscart IT Solutions Pvt Ltd

5. Highlights of the Successful Event:

- ❖ The informality of the event encouraged a more casual and approachable interaction between the attendees, facilitating a free flow of ideas and insights. Through this informal setting, industry professionals and students had the opportunity to learn from one another, share their experiences, and collectively grow in their understanding of the field.
- ❖ The ROBO relay event was engaging as it involved all the players controlling the robot during the competition
- ❖ Participation of industry personnel from different industries and various startups gave a wide experienced crowd.

6. Areas for Improvement

- ❖ Have extra components ready, such as pre-programmed Arduino boards, Bluetooth modules with pre-set names, and motor drivers to avoid any last-moment errors.
- ❖ Organise participants into smaller groups and assign volunteers with bot-building experience for each group to ensure active involvement and support for all participants.

WORKSHOP REPORT

Pick and Place Robot

At ComedKares Innovation Hub,
Kalaburagi
(01/06/2024)

PRINCIPAL
Shetty Institute of Technology
KALABURAGI

Karnataka Professional Colleges Foundation, in their endeavour to offer an effective, fair and objective testing procedure to determine merit of students seeking admission to the member institutions, have formed "Consortium of Medical, Engineering and Dental Colleges of Karnataka" (COMEDK). Professional education in engineering has about 125000 students who pass out into the employability arena every year. It is the idea of COMEDK to help these engineers get upgraded in their 21st Century skills as well as the latest technologies like AI, ML, IOT so that they are more employable and ready for industry.

ComedKares is an initiative by ComedK to help students of engineering, dental, and medical colleges choose the right career by building their competitiveness and exposing them to various opportunities available in the industry. ComedKares offers courses designed along with industry experts and endorsed by VTU that will enhance the learner's 21st-century skills while also giving access to machines, tools and mentors to build products and solutions that positively impact the community. ComedKares catalyses the interaction between the Community (industry and regional professional groups), Industry experts and academic stakeholders for knowledge sharing and co-creating solutions through various programs spread across the year.

COMEDKARES CENTRES

World-class Innovation Hubs

ComedKares has established eight state-of-the-art Innovation Hubs across Karnataka, that empower students to become problem solvers, acquire competency in emerging technologies and develop solutions that have a positive impact on the community. ComedKares will conduct structured programs at the Innovation Hubs to equip the students with practical experience and give them hands-on exposure to advanced technologies, tools and machinery.

Objectives

Comedkares aims to provide engineering, dental and medical students a state-of-the-art platform to realise their full potential, enhance their ability to innovate, sharpen their entrepreneurial instincts, and develop socially responsible aspirations.

- Catalyse interactions between the community and academia through immersive, community-centric courses
- Empower community and student innovators through resource access and strategic partnerships for idea prototyping and implementation within ecosystems
- Nurture 21st-century skills in students and transform them into compassionate, creative and progressive technocrats

Program Overview:

"Unveil the future of automation with our Pick and Place Robot Workshop. Delve into the intricacies of designing and developing cutting-edge solutions in robotic manipulation. Throughout this intensive program, participants will master essential techniques tailored specifically for pick and place robots. Guided by experts, you'll explore a fusion of design thinking methodologies and agile development principles, gaining hands-on experience through interactive sessions and collaborative brainstorming. Experience rapid iteration cycles, empowering you to swiftly translate ideas into functional prototypes. By the workshop's culmination, you'll emerge equipped with the knowledge and tools to efficiently prototype and test pick and place robotic systems, accelerating innovation and reshaping industries."

3	Introduction to Pick and place workshop	2:25 PM - 2:45 PM
4	Introduction to components of the bots	2:45 PM - 2:55 PM
5	Explanation of the components	2:55 PM - 3:25 PM
6	Connections of the components	3:25 PM - 3:45 PM
7	Debugging the code and testing	3:45 PM - 4:05 PM
8	Troubleshooting	4:05 PM - 4:25 PM
9	Pick and Place Bot Event	4:25 PM - 5:00 PM
10	Discussions and feedback	5:00 PM - 5:30 PM

Date and Time: 01/06/2024, 02:15 PM - 05:30 PM

The Pick and Place robot Workshop, conducted between 02:15 PM and 05:30 PM, emerged as an enriching and insightful experience for the enthusiastic participants hailing from Shetty institute of technology Kalaburagi. The workshop transpired as outlined below:

1. Welcome and Registration (2:00 PM - 2:15 PM):

- Participants from Shetty institute of technology Kalaburagi arrived and swiftly completed the registration process.
- Distribution of workshop materials, including kits, to the enthusiastic participants.
- A brief welcome address, setting the tone for the workshop, and an introduction to the day's agenda.

2. Introduction about COMEDKARES (2:15 PM - 2:25 PM)

[Handwritten Signature]

- Overview of COMEDKARES, its journey and giving a brief of all the courses.
- COMEDKARES as Mentors to the students and showcasing the winners of the Idea Pitching events and Hackathons
- Video of the courses run in the centre and showing the Projects and Prototypes done by the students

3. Introduction to Pick and place workshop(2:25 PM – 2:45 PM):

- Explore the fundamentals of pick and place technology.
- Learn essential techniques for designing and operating pick and place systems.
- Gain hands-on experience through interactive workshops.

4. Introduction to components of the bots(2:45 PM – 2:55 PM):

- The kit was provided to the students so that it helps in identifying and understanding.
- The required information, students were gained.

5. Explanation of the components (2:55 PM – 3:25 PM):

- For bot building the important thing is components.
- Facilitator explained all the components to the students.

6. Connections of the components (3:25 PM – 3:45 PM):

- The various components were used, the connections were guided by the facilitator.
- The students involved in this by understanding the concepts.

7. Debugging the code and testing (3:45 PM – 4:05 PM):

- Debug code meticulously for errors.
- Conducting comprehensive testing to ensure functionality.
- Iterate and refine code based on test results for optimal performance

8. Troubleshooting(4:05 PM – 4:25 PM):

- Identifying and resolving operational issues promptly.
- Analysing root causes effectively
- Implementing efficient solutions for seamless pick and place functionality.

9. Pick and Place Bot Event(4:25 PM – 5:00 PM):

- The working of bot was shown to the students.
- The students controlled the bot and enjoyed the event.

10. Discussions and feedback(5:15 PM - 5:30 PM):

- The students discussed the doubts about events.
- Later the feedback form was shared with the students and the students filled it.

Program Overview:

The Figma workshop is an immersive experience designed to equip participants with the skills needed to master the Figma design tool. From fundamental concepts to advanced techniques, attendees will learn how to create stunning user interfaces and prototypes efficiently. Through interactive sessions, hands-on exercises, and real-world examples, participants will explore collaborative design workflows and best practices. By the end of the workshop, attendees will have the confidence and proficiency to leverage Figma effectively for their design projects, enhancing their productivity and creativity.

Fest Overview:

The Techno fest was held on 18th and 19th of January 2024 at VTURC Kalaburagi. It is an event that brings together enthusiasts, professionals and innovators from the field of technology to showcase and celebrate advancements, innovations and trends in various technological domains. Here's the list of Manthana technical events;; Prakalpa Prastuthi (Live project expo, Chanaksh (coding) and Robo samara (Robo Race & war) and Chintana management events- Sumedha(Start up). In these competitions many of our students participated in these events from our centre.

MEMORANDUM OF UNDERSTANDING

(MoU)

BETWEEN

ExcelR Solutions

&

Shetty

Shetty Institute of Technology
Shahbad road, Kalaburagi,
Karnataka.

FOR

**Student Development & Faculty Development
Programs on Different Emerging Software
Technologies**

MEMORANDUM OF UNDERSTANDING

This **Memorandum of Understanding** (herein after called as the 'MOU') is entered into on this the 10th day of October month 2022 (Date 10-10-2022), by and between **ExcelR Solutions**, (here in after referred as '**First Party**')

And

Shetty Institute of Technology
Shahbad road, Kalaburagi,
Karnataka.

(herein after referred to as "**Second Party**",
(First Party and Second Party are hereinafter jointly referred to as '**Parties**' and individually as '**Party**')

WHEREAS:

1. First Party is a EdTech company: ExcelR Solutions
2. First Party & Second Party believe that collaboration and cooperation between themselves will promote more effective use of each of their resources and provide each of them with enhanced opportunities.
3. The Parties intend to cooperate and focus their efforts on cooperation within the area of Skill Based Training, Education and Research.
4. Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interests.

**NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL
PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO
AGREE AS FOLLOWS:**

CLAUSE 1: CO-OPERATION

5. Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings.
6. First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to the second party in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.
7. The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.
8. ExcelR would be the training delivery partner for the second party on various trending technologies
9. Training & Development and dissemination of knowledge for students of second party & affiliated colleges and employees of both the organizations.
10. ExcelR would work with incubation centers/ innovation cells of second party(Case to case basis), to formulate the business cases and data collection process from various industry and academic bodies that are associated with the second party
11. Cooperation between both parties would be extended to any other area which may be mutually beneficial to both organizations.

CLAUSE 2: SCOPE OF THE MoU

12. The budding graduates from the institutions could play a key role in the technological up-gradation, innovation, and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.
13. Curriculum Design: First Party will give valuable input to the Second Party in teaching/training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
14. Software Technologies Training: The first party will provide the training to the students and Faculties of the second party on different technologies like Data Science, Data Analyst, Artificial Intelligence, Tableau, Python, etc., Research and Development
15. Skill Development Programs: First Party to train the students of the second Party on the emerging technologies in order to bridge the skill gap and make them industry ready.
16. Guest Lectures: First Party to extend the necessary support to deliver guest lectures to the students of the second Party on the technology trends and in-house requirements.

17. Faculty Development Programs: First Party to train the faculties of the second Party for imparting training as per the industrial requirement considering the National Occupational Standards in concerned sector, if available.
18. Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein
19. There is no financial commitment on the part of the second party to enroll the students and faculties for the different free trainings run by the first party under Everyday Learning Initiation.
20. The first party would extend the help in providing artifacts such as training records and certificates to the second party upon a written request from the second party. This information is limited to only the students of the second party and at the discretion of the first party.
21. In case, the second party wants to conduct customized commercial training then this agreement can be amended, adding anannexure with mutually agreed terms.

CLAUSE 3: INTELLECTUAL PROPERTY

22. The first party will have the sole rights on the curriculum and related content provided in the training and it cannot be replicated or copied without the consent of the first party.
23. Confidentiality: Except as may otherwise be required by law, each party will hold confidential, during and after the term of this Agreement, any confidential information disclosed to it or its representatives, and will not disclose any such confidential information to any third party.

CLAUSE 4: VALIDITY

24. The period of the agreement is valid for a period of 2 years from the date of signing of this agreement
25. This agreement will be valid only at the intentions of the parties involved therein, this MOU could be dissolved or cancelled by either party any time by giving 30 days' notice and shall not have any legal bindings in nature, should either or all the parties to it opt to not act upon, the MOU loses its validity.

CLAUSE 5: RELATIONSHIP BETWEEN THE PARTIES

26. It is expressly agreed that First Party and Second Party are acting under this MOU as independent contractors, and the relationship established under this MOU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

REPORT

Title: "TRAINING PROGRAM ON SOFTWARE TYPES"

Date: 22 Dec 2022

Time of Event: 10 AM – 11 PM

Speaker: Placement Officer

DETAILS OF PROGRAM

The session was conducted to students of all the Department. Software is a set of instructions, data or programs used to operate computers and execute specific tasks. It is the opposite of hardware, which describes the physical aspects of a computer. Software is a generic term used to refer to applications, scripts and programs that run on a device. It can be thought of as the variable part of a computer, while hardware is the invariable part.

The two main categories of software are application software and system software. An application is software that fulfils a specific need or performs tasks. System software is designed to run a computer's hardware and provides a platform for applications to run on top of.

Other types of software include programming software, which provides the programming tools software developers need; middleware, which sits between system software and applications; and driver software, which operates computer devices and peripherals.

CONCLUSION

System software is everything for your computer, and your system is nothing without system software. Also, system software acts as a translator between you and your system hardware. So, knowing about system software is fundamental for system users. If you need to learn more about the system software, hurry to make your computer function better.

REPORT

Title: "TRAINING PROGRAM ON ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING"

Date: 22 Aug 2022

Time of Event: 11 AM – 12 PM

Speaker: Placement Officer

DETAILS OF PROGRAM

The main objective of the program is to Provide a comprehensive understanding of AI and ML concepts, algorithms, and applications. Equip participants with practical skills to develop AI and ML models and Explore real-world use cases and case studies to illustrate the application of AI and ML in various domains.

Topics Covered:

- Introduction to AI and ML
- Overview of Artificial Intelligence and Machine Learning
- History and Evolution of AI and ML
- Importance and Applications of AI and ML
- Foundations of Machine Learning
- Supervised Learning
- Unsupervised Learning
- Values and Outliers

CONCLUSION

In conclusion, the Training Program on Artificial Intelligence and Machine Learning offers participants a comprehensive understanding of the fundamental principles, techniques, and applications of AI and ML. Throughout the program, participants engage in a variety of learning activities, including lectures, hands-on exercises, group discussions, and real-world case studies, to deepen their knowledge and practical skills in this rapidly evolving field.

Overall, the Training Program on Artificial Intelligence and Machine Learning empowers individuals to harness the transformative potential of AI and ML, driving innovation and impact across industries and sectors.

REPORT

Title: "DEEP LEARNING"

Date: 08 Feb 2023

Time of Event: 11 AM – 12 PM

Speaker: Placement Officer

DETAILS OF PROGRAM

The session was conducted to students of all the Department. Deep learning is the subset of machine learning methods which are based on artificial neural networks with representation learning. Deep learning is a class of machine learning algorithms that uses multiple layers to progressively extract higher-level features from the raw input.

Deep-learning architectures such as deep neural networks, deep belief networks, deep reinforcement learning, recurrent neural networks, convolutional neural networks and transformers have been applied to fields including computer vision, speech recognition, natural language processing, machine translation, bioinformatics, drug design, medical image analysis, climate science, material inspection and board game programs, where they have produced results comparable to and in some cases surpassing human expert performance.

In deep learning, each level learns to transform its input data into a slightly more abstract and composite representation. In an image recognition application, the raw input may be a matrix of pixels; the first representational layer may abstract the pixels and encode edges; the second layer may compose and encode arrangements of edges; the third layer may encode a nose and eyes; and the fourth layer may recognize that the image contains a face.

CONCLUSION

Students were able to understand Machine Learning is a technique of training machines to perform the activities a human brain can do, albeit bit faster and better than an average human-being. Today we have seen that the machines can beat human champions in games such as Chess, AlphaGO, which are considered very complex. You have seen that machines can be trained to perform human activities in several areas and can aid humans in living better lives.

RECODE
Reinvent your future

This Memorandum of Understanding (MOU) sets for the terms and understanding between the **Shetty Institute of Technology, Gulbarga, Karnataka** (from here on referred as *Client*) and the **RECODE Minds Private Limited** Kondapur, Hyderabad (from here on referred as *Service Provider*) to implement "**RECODE Minds Higher education program**".

Background:

RECODE Minds Private Limited is an ed-tech platform, empowers individuals and enterprises to transform careers through pioneering experiential education in Artificial Intelligence, Data Analytics, Machine Learning and Cloud Technologies. Formulated by industry experts, RECODE's immersive & application-based learning methodology allows one to integrate real world projects to their profiles as they undergo training programs.

Cooperation:

Both the parties are united by common interests and objectives, and RECODE shall establish channels of communication and cooperation that will promote and advance the respective operations within Shetty college. RECODE will ensure and support that, both parties shall keep each other informed of potentials opportunities and shall share all information that may be relevant to secure additional opportunities for one another.

RECODE and the Shetty College's cooperation will enhance the utilization of the intellectual capabilities of the RECODE trainers as well as provide significant input to them in developing training programs especially tailored to the needs of industry and the Shetty College. This MoU governs the general terms of cooperation. Both parties shall work together and, as soon as practicable, enter into all relevant agreements, deeds, and documents necessary to carry out the actions contemplated by this MoU. Both parties will agree upon the definitive documents. Together with the definitive documents, this MoU represents the entire understanding between the parties as to the subject matter hereof. It supersedes all prior understandings between them on the subject matter hereof.

Purpose:

The budding graduate from the institution could play a key role in emerging technologies and innovation and competitiveness of an industry. Both the parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.

- **Curriculum design:** RECODE will seek valuable inputs from Shetty College in designing the curriculum so that the service provider can come up with a teaching methodology and suitable customization for program delivery so that the students fit into the industry scenario meaningfully.
- **Industry connects:** Industry and institution interaction will give an insight into the latest developments and requirements of the industries. The recode minds will permit the faculty and students from the Shetty college to attend events on its network companies and also involve in industry training and exposure provided to the students to have a smooth transition from academics to a working career.
- **Employability:** Recode Minds to extend the necessary support to deliver the guest lectures or speaker connects to the students on the technology trends and institution requirements.
- **Placement of the trained students:** Recode Minds will actively engage and help the delivery of the training programs, resume writing sessions, mock interviews, and internship and will facilitate the placements of the students in a best possible manner. Recode minds will also support the students who fulfilled the courses requirements and completed the courses will be eligible for applicable internships.

Both the parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature is required for the delivery of the programs on the term specified.

RECODE Learning Models:

- **RECODE's Exclusive:** This program provides full-time association to the institution with end – end integration with regular courses curriculum and deliver programs on emerging technologies and employability
- **RECODE Elective:** This program helps institutions in teaching and students in learning emerging technologies with Industry certification by completing elective courses with partial integration with institution curriculum. Making sure students are technologically equipped to get started with his/her career.
- **RECODE Learner:** RECODE Learner program facilitates Technology specific certification programs for engineering students. Individual modules in this program can be designed and delivered as bootcamps.
- **RECODE Projects:** RECODE facilitates real-time projects in association with IBM to fulfill student's course and academic requirements for mini and major projects. This will give firsthand experience in working with industry.

The above goals will be accomplished by undertaking the delivering the agreed programs and course's offerings.

Commercials:

As mentioned in our meetings, program fee includes such as course content, platform access, access to industry connect sessions, career orientation session, certification from RECODE, digital badges to validate authenticity of the IBM certifications, job assistance & access to capstone projects as per product offerings. Details of such will be provided at the time of program wise subscription.

Following MoU signing, the Shetty college will facilitate RECODE team in scheduling program orientation sessions. And **RECODE team is authorized and takes complete responsibility for students' registrations and fee collection.** As soon as student completes the program registration, delivery team from Recode Minds will coordinate with Shetty colleges' program coordinator on schedules and executes the program.

Reporting

Team from Recode Minds and Shetty college will evaluate the program completion status, student completion ratio and learning outcome and report the finding and submit the reports to concern teams, once in every three months to make sure the program fulfills its learning requirements

Technical Support:

RECODE will be responsible for providing first-level support to all the registered participants. This responsibility includes making a commercially reasonable effort to resolve any questions or problems regarding the Services whether discovered or reported

Data Protection:

RECODE will treat all content as confidential by not disclosing content except to Recode minds associate and sub-processors only to the extent necessary to deliver the Service unless otherwise specified in the statement of work. The client is responsible for providing complete, accurate, and up-to-date information about its data privacy associate and each of its other associates. Recode minds will neither return nor delete the client/customer's data as the service is being provided directly within the cloud services and therefore the regulation about the deletion and return set out in the respective services apply.

Governing Law:

This MoU shall be governed by the laws of India. Each Party hereby submits to the exclusive jurisdiction of the courts of Hyderabad, India. And waives any objection to venue with respect to actions brought in such courts

Confidentiality:

Both Parties shall protect the confidentiality of each other's Confidential Information in the same manner as they protect the confidentiality of their own proprietary and confidential information of similar nature. Each Party, while acknowledging the confidential and proprietary nature of the Confidential Information agrees to take all reasonable measures at its own expense to restrain its representatives from prohibited or unauthorized disclosure or use of the Confidential Information.

Course content and Confidential Information shall at all times remain the property of the RECODE minds and may not be copied or reproduced by the Shetty college without the disclosing party's prior written consent. Shetty college may disclose the confidential information only to the RECODE team and consultants on a need-to-know basis.

Duration

This MOU is at will and may be modified by mutual consent of authorized officials from both parties. This MOU shall become effective upon signature by the authorized officials from both parties and will remain in effect until modified or terminated by any one of the partners by mutual consent. In the absence of mutual agreement by the authorized officials from the below listed signatories this MOU shall end on April 30, 2025.

REPORT ON: MACHINE LEARNING

Program Name: Organizing a Seminar on Machine learning.

Program Date : 30-05-2022 at 11:00 am

Venue: SIT, Auditorium

Organizer: Department of Computer Science and Engineering

Speaker: Mr.Madhusudhan Reddy (Head, Statergy & Operations

Recode Minds Pvt Ltd)

Activity:

The Computer Science and Engineering by organizing seminar on Machine Learning. The seminar had students of computer science and engineering department as attendees. The seminar coordinated & speech by Placement officer Prof. Chandrakala Patil. The eminent resource person Madhusudhan Reddy(Head, Statergy & Operations Recode Minds Pvt Ltd),Presented the session on Machine Learning.

Session Started with a focus on Basics and Inportance of Machine learning & Mr.Madhusudhan Reddy went to explain the following are points.

- 1.What is Machine Learning
- 2.Importance of Machine Learning
3. Basic Components
- 4.Machine Learning Life cycle
- 5.Types:
 - 1.Supervised learning
 - 2.Unsupervised learning
 - 3.Semi-Supervised Learning.
 - 4.Reinforcement Learning
- 6.Advantages & Disadvantages
7. Future of Machine Learning

**Memorandum of Understanding (MoU)
On Collaboration in Research and Development**

Between

Shetty Institute of Technology, Kalaburagi

And

**Al-Badar Rural Dental College and Hospital,
Kalaburagi**

This Memorandum of Understanding (MoU) is made and entered into as of 22-02-2022 by and between Shetty Institute of Technology, located at 5km Shahabad Road Kalaburagi 585105, and Al-Badar Rural Dental College and Hospital, located at Naganhalli road near Koranti Hanuman Temple. Kalaburagi

PURPOSE

The purpose of this MoU is to establish a framework for cooperation between SIT and Al-Badar to promote research and development (R&D) in areas of mutual interest, enhance the quality of education, and encourage innovation.

OBJECTIVES

1. **Collaborative Research:** To undertake joint research projects in areas of mutual interest.
2. **Education Enhancement:** To promote quality education through collaborative programs, workshops, and seminars.
3. **Resource Sharing:** To facilitate the sharing of resources, including laboratories, libraries, and research facilities.

RESPONSIBILITIES

Shetty Institute of Technology (SIT)

1. Provide access to engineering research facilities and laboratories.
2. Facilitate faculty and student exchange programs for collaborative research.
3. Organize joint seminars, workshops, and conferences in collaboration with Al-Badar

Al-Badar Rural Dental College

1. Provide access to dental research facilities and clinical laboratories.
2. Facilitate faculty and student exchange programs for collaborative research.
3. Organize joint seminars, workshops, and conferences in collaboration with SIT.

CONFIDENTIALITY

Both parties agree to hold in confidence all information and data designated as confidential, obtained from either party during the tenure of this MoU, and will not disclose the same to any third party without the consent of the other party.

INTELLECTUAL PROPERTY

Any intellectual property rights arising from the collaborative activities will be jointly owned by SIT and Al-Badar. Specific agreements regarding the ownership, management, and commercialization of such intellectual property will be made on a case-by-case basis.

DURATION

This MoU shall remain in effect for a period of five (5) years from the date of signing, unless terminated earlier by either party with a three (3) months written notice. The MoU can be extended by mutual agreement of both parties.

TERMINATION

This MoU may be terminated by either party with a three months written notice to the other party. In the event of termination, both parties agree to honor any commitments made prior to the termination.

EFFECTIVE DATE

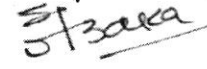

This MoU shall become effective upon the date of the last signature below.

Subject: Acceptance of Research Study Proposal -

Respected sir

We acknowledge receipt of your letter dated **01/03/2022** requesting permission to conduct a research study at Al-Badar Dental College and Hospital, Kalaburagi. We appreciate your interest in collaborating with our institution for your research study. We are pleased to inform you that your research study proposal titled "**Detection of Molar Tooth Removal using Machine Learning.**" has been reviewed and accepted by our research committee. We believe that your study aligns with our institution's research goals, ethical standards and objectives. We grant you permission to conduct your research study at Al-Badar Dental College and Hospital for a period of one year starting from 2022, as per your proposal. We will provide access to our facilities, resources, and expertise to support your research. We appreciate your contribution to dental research and look forward to collaborating with you. Please feel free to contact us if you require any assistance or guidance.

Sincerely,

PRINCIPAL

From,
Head of the Institution
Shetty Institute of Technology,
Kalaburagi

Subject: Request to Conduct Research Study at Al Badar Dental College and Hospital,
Kalaburagi.

Respected Sir/Madam,

I hope this letter finds you well. I am writing to request permission to conduct a research study at Al Badar Dental College and Hospital, Kalaburagi, for a period of 1 year. For the faculty Chandrakala V Patil Department of Computer Science Engineering from Shetty Institute of Technology, Kalaburagi and her proposed research study is titled "**Detection of Molar Tooth Removal using Machine Learning.**" She is interested in conducting this study at Al-Badar Dental College and Hospital due to its reputation for excellence in dental education and research. I believe that the institution's resources and expertise will greatly benefit her research and contribute to its success. I have attached a detailed research proposal outlining the scope, methodology, and timeline for her study. I estimate the study to be completed within one year, starting from March 2022. I kindly request your consideration for permission to conduct her research study at your esteemed institute and I am confident that this study will contribute to the advancement of dental research and benefit the institution's academic community.

Thank you for your time and consideration. I look forward to your response.

Memorandum of Association (MoA)

on

Exchange of Staff/Faculty/Course

between

Sri Siddhartha Institute of Technology (SSIT)

Tumakuru, Karnataka

and

Shetty Institute of Technology (SIT)

Kalaburagi, Karnataka

This Memorandum of Association (MoA) is effective as of 2022-2027 to establish an affiliation
between

Sri Siddhartha Institute of Technology – Department of Information Science & Engineering
having expertise in the areas of technological education and research, having its office at
Kunigal Road, Saraswathipuram, Tumakuru-572105 Karnataka, herein after referred to as SSIT –
(Party-1).

and

Shetty Institute of Technology – Department of Computer Science & Engineering having
expertise in the areas of technological education and research, having its office at Shahabad
Road, Kalaburagi-585105, Karnataka, here in after referred to as SIT–(Party-2).

The institutions here in after referred individually as institute and collectively as institutes.

Preamble

SSIT and SIT have many areas of common interest in Engineering and Sciences, considerable
advantage may be gained from their pursuit on a collaborative basis in the fields of academics,
education and research.

Therefore, SSIT and SIT have decided to enter into this Memorandum of Association which
defines the framework for the cooperation of the two institutions set out in the following
sections.

1. Objectives

Both institutes agree to develop the following collaborative activities in the academic areas of
mutual interest, on a basis of equality and reciprocity.

The two institutions shall seek to promote:

Faculty/Staff/Course Exchanges

- (i) The exchange of faculty to the mutual benefit of institutions.
- (ii) Collaboration in teaching, research and development in the field of mutual interest.
- (iii) Exchange of academic materials and publications.
- (iv) Curriculum development, review, upgrading of teaching and research skills.
- (v) Participating in Conferences, symposiums and other types of academic activities.
- (vi) Exchange information on research and educational programs.
- (vii) Jointly organize short-term continuing education programs on topics of mutual
interest and to invite each other's faculty to participate there in.
- (viii) Organize jointly seminars, conferences, or workshops on topics of mutual interest
and to invite each other's faculty to participate there in.
- (ix) Use laboratory facilities in specific cases for a limited period.

A plan of action will be prepared for each activity. SSIT and SIT agree that detailed terms and conditions that guide each activity identified above will be determined separately and agreed upon by the two institutions. These terms shall include a technical description of the proposed activity, financial arrangements, and person(s) responsible for its implementation.

2. Coordination

Each institution shall appoint one member of its teaching/research faculty to coordinate the programme on its behalf. Further, a coordination committee consisting of a programme coordinator from SSIT and programme coordinator from SIT will periodically review and identify ways to strengthen cooperation between the two institutions.

3. Confidential Information

SSIT/SIT does not absolve any confidential information during the research activity.

4. Duration and Termination

The Memorandum shall remain in force for a period of FIVE years commencing from the effective date. Institutions may extend the term by written agreement signed by both after review. Either institution may terminate the MoA by giving written notice of six months in advance to the other institution. Once terminated, neither SSIT or SIT will be responsible for any losses, financial or otherwise, which the other institutions may suffer.

However, SSIT and SIT will ensure that the provisions of this Memorandum shall continue to apply to all activities in progress until their completion.

5. Amendments/Modifications

This MoA may be amended or modified by a written agreement signed by the representatives of both institutes.

6. Governing Law

Participating faculty/staff involved in any activities under this Memorandum must adhere to the rules and regulations of the host institutions.

7. Dispute Resolution

In case, there be a dispute relating to any aspect of academic cooperation, Principal / Respective HOD's of SSIT and SIT will jointly resolve the dispute in a spirit of independence, mutual respect and shared responsibility.

SSIT and SIT welcome the establishment of this Memorandum of Association and jointly agree to the provisions as set out above.

Shetty Institute of Technology, Kalaburagi	
Date of Activity : 20-04-2022	Time Slot : 3:00 PM to 4:30 PM
Activity Name :- "Web Designing Tools"	
Organizing Committee : Training & Placement Cell	Guest / Resource Person : Dr. Karunkar
Total Number of Students Attended : 35	Report Generated by : Training and Placement Cell

OBJECTIVES:-

1. Ease of Use: Ensure intuitive interfaces to simplify web design tasks.
2. Efficiency: Increase productivity with features like drag-and-drop functionality and templates.
3. Customization: Allow for personalized designs with customizable layouts, fonts, and colors.
4. Responsive Design: Support the creation of websites that function well on various devices.

PROGRAM DETAILS:-

On November 28, 2019, the Placement Cell at Shetty Institute of Technology organized a session titled "Web Designing Tools." The session, led by Dr. Karunkar, aimed to familiarize 35 students with the latest web designing tools and their applications in creating efficient and user-friendly websites. Dr. Karunkar discussed the importance of ease of use, customization, and responsiveness in web design, highlighting tools that streamline development processes and enhance productivity. The session concluded with an interactive Q&A, where students actively engaged in discussions about the practical aspects and career opportunities in web design. Overall, the session was informative and well-received, providing valuable insights into modern web design practices.

PRINCIPAL
Shetty Institute of Technology
KALABURAGI

OUTCOMES: -

1. Enhanced Design Quality: Websites created with web designing tools often feature improved aesthetics and functionality.
2. Increased Productivity: Designers can work more efficiently, utilizing templates and automation features.
3. Improved User Experience: Websites are likely to offer better navigation and usability due to responsive design and accessibility features.
