this event and are  
selected to represent  
their project in the  
International INEX Expo  
2024 in Goa on 13th and  
14 November 2024.

**Team Members :** Basawaraj,  
Tejamurthy, AkshayKumar,  
Mahantesh, Hanmanth  
**Branch :** AIML (2nd year)  
202-24 batch.

- **Equiplease - Industrial and agriculture equipments rental app**

The main aim of this project is to provide a platform for Industrial equipment owners (construction, Industrial equipment) and Industrial equipment users. This platform aims to connect the equipment owners with businesses in need of temporary equipment for various industrial projects. The goal is to provide the renting process, enhance user experience and provide a platform that addresses the unique needs of industrial users. Here the equipment owners need to onboard their equipment on the app and equipment users will order the equipment within the app.

**Congratulations to the team from Management and Staff of SIT, Kalaburagi**
